

The map displays the Forcalquier region in France. Red dots, representing Study 1, are concentrated in the western half, particularly around the villages of Litro, Le Plan, and Grange Neuve. Blue dots, representing Study 2, are densely packed along the eastern edge, following the 'ROUTE DE LA FORCLAZ' and near the town of Forcalquier. The map also shows several roads, including 'ROUTE D'ÉMO' and 'ROUTE DE LA FORCLAZ', and various geographical features like 'Tête Noire' and 'Ferrière'. Two numbered circles, 1 and 2, highlight the primary sampling areas for each study.
