

The map displays the Hühli region in Switzerland, with various settlements and geographical features labeled. The distribution of four bird species is shown as follows:

- Redpoll (red dots):** Concentrated in the upper right quadrant, particularly around the area marked with circle 1.
- Blue Tit (blue dots):** Found in the upper right quadrant, primarily around the area marked with circle 2.
- Green Tit (green dots):** Located in the lower right quadrant, near the area marked with circle 3.
- Purple Tit (purple dots):** Distributed across the lower left and central parts of the map, with a notable cluster near the area marked with circle 4.

Numbered circles 1, 2, 3, and 4 are placed on the map to highlight specific locations of interest for each species.
