

Map of the Tägerstein area showing sampling locations for the 'Tägerstein' project. The map displays various geographical features, including the Aare river, the Simmeelutunnel, and several roads like MATTENWEG, MATTESTRASSE, and RÖTTSTRASSE. Sampling locations are marked with colored dots and numbered circles 1 through 7. The locations are distributed across the area, with a high concentration of red dots (1) near Brunni and Nitrochemie, and a cluster of yellow dots (6) near Tägerstein. Other locations include Steinigand, Steinbruch Burgholz, and various smaller settlements like Spiezwiler and Mechtenried.
